

IEEE Standard Verification Report

***Abstract:** This is an abstract text. It should be justified and span the width of the page in the first section, or be part of the flow. In our implemented mixed layout, the title and abstract are on page 1, followed by two-column text. The font should be Times-Italic for the abstract.*

1. Introduction

- This is the first bullet of the introduction.
- It should be in a two-column layout.
- The font should be Times-Roman 10pt.
- Here is some filler text to ensure it wraps to the next line in the column properly. Here is some filler text to ensure it wraps to the next line in the column properly. Here is some filler text to ensure it wraps to the next line in the column properly.

2. Methodology

- This section tests the column flow.
- We expect this to appear in the first or second column depending on length.
